

UltraSlim®

UltraSlim® is a completely noninvasive treatment that uses the unique power of medical light in order to activate Lipid Metabolism – your body’s natural process of removing fat. We guarantee a loss of 2” during your first treatment or your money back. These results are only possible with our proprietary combination of wavelength, dosage, and modulation.

The light of UltraSlim® decreases the fat in the cells substantially. Over the next 72 hours, the fat will continue to safely decrease, giving an additional 1.25-inch loss on average. UltraSlim® is for everyone, regardless of age, sex, or skin tone.

UltraSlim® is manufactured in the USA by
Photonica USA LLC.

INNER HEALTH

FDA

NO SIDE
EFFECTS

No BMI Restrictions

The rate of obesity in America has risen from 30.5% in the early 2000s to 42.4%. Obesity elevates the possibility of developing health problems such as **Heart Disease, Stroke, Type 2 Diabetes, and certain types of Cancer.** According to the CDC, even a moderate loss of 5% of total body weight can improve health and decrease the probability of developing chronic disorders. Our device is for everyone regardless of age, sex, or skin tone. **Talk to your doctor about how UltraSlim® will benefit your health.**
